PRODUCT BACKGROUND

Savvy Minerals by Young Living provides women with cosmetics that empower them in their own unique and natural beauty. Savvy Minerals Blush lets women highlight their confidence without compromise. We don't compromise either—on quality, purity, or safety. Unlike most mineral powders, ours are free from cheap fillers like talc and bismuth, low-quality, cheap fillers that can negatively affect the skin. Instead, our powders are made with a mica mineral base, which has been finely ground for smooth, luxurious application and is ideal for sensitive skin.

DIRECTIONS

For best results, apply with a brush. After applying Foundation, sprinkle a small amount of Blush onto its jar lid. Dip the brush into the lid to pick up the powder, then lightly tap the brush handle against the side of the lid to remove the excess. Apply Blush to the apples of the cheeks and blend outward, along the cheekbone toward the temples. Build color gradually to avoid overapplication.
